

Mike Simityan's Bird Room

Mike's bird room is 10.5' x 8'. It contains 40 breeding cages which convert to flights after breeding season.

Mike's cages are from China.
Notice exterior accessible seed cups which make adding seed much faster and seed level can be checked more easily.

Mike's been breeding waterslagers for seven years and has consistently had top birds in all US shows.

"What It's All About..."

Mike plans to breed 60 - 80 youngsters from 14 hens. He's using 3 males, but keeping others as tutors.
