

Samples of cabinets made by various members.
If you have photos, Please [Email](#)

The four above photos are from Sebastian Vallelunga. Notice the doors slides up and detach.

of Mike Simiytan's cabinets. He has them stacked at home for
ng. Notice the doors on these cabinets swing open and closed.
This style is the more popular.

This cabinet made by Darrell Horst. When the birds are prese
divider is placed vertically between the cages. Note that som
cabinets are made with or without a horizontal board placed be
the top and bottom cages. These features are up to each cabi
maker.

Ivan Petrovich a Russian cage maker. Photo provided by Mike Simityan.
